

OFFERING

AWS Secure Billing via ES2

Why AWS Secure Billing via ES2?

Security is everything to ES2. The AWS Secure Billing offering layers security reporting over your AWS account at no additional cost.

With our heritage and pedigree in security, we have applied all our learning and experience to supply the most secure way to run your workloads on AWS. We have added industry leading tooling to the AWS Secure Landing Zone that has been purpose built to give you additional value with automated security reporting at no additional cost.

Benefits

Rely on ES2 for your AWS security through our automated security platform:

- No additional costs to run your AWS billing through ES2
- Know that your AWS account is secured according to best practices
- Receive regular security reports to action or have the ES2 Managed Services team action on your behalf
- Receive regular cost optimisation reports

Approach

Leveraging the extensive capability of the ES2 Managed Service team so that support is available to you 24x7, you will inherit the same best practice options as full Managed Services customers with the option to have ES2 action any changes on your behalf at our low rates.

Additional monitoring and reporting is included to give you complete visibility and control. There is no ES2 ownership of your data.

At any time, your AWS account(s) can be returned to your ownership with everything as is, all servers and services will be transferred back to you.

Fee

There is no additional fee for AWS Secure Billing via ES2.

Services

The AWS Secure Billing via ES2 is delivered via the ES2 Managed Services team.

Areas covered:

- Security best practices
